

FIRE RATED DOORS

Your Trusted Solution

ABOUT US

Established in 2013, MEPL (MDD Engineering Pvt. Ltd.) is an engineering and manufacturing company delivering high-performance infrastructure and safety solutions across industries. With a strong focus on precision engineering, quality, and reliability, we develop products and systems designed to meet demanding operational and safety requirements.

Our in-house manufacturing capabilities, supported by a robust engineering-led approach, enable us to deliver precision-engineered solutions with consistent quality, reliability, and long-term performance.

M.E.P.L. brings extensive experience in executing critical infrastructure requirements across industrial, healthcare, pharmaceutical, warehousing, and other specialised high-performance spaces.

Our Fire Rated Doors form an integral part of fire protection infrastructure, helping protect people, assets, and critical spaces through effective fire and smoke separation. We work closely with clients, consultants, contractors, and project teams to deliver reliable, compliant, and application-specific fire safety solutions.

Precision Engineering

High-accuracy components built with CNC precision.

Advanced Manufacturing

Automated, efficient production with consistent quality.

Innovative Modular Solutions

Smart, scalable systems for flexible installation.

Customized Designing

Tailor-made configurations built to your requirements.

Quality Guaranteed

Tested, certified, and reliable every time.
